SUMMARY

Enthusiastic BCA student with a strong base in frontend development and a growing interest in backend technologies to boost my future career. Experienced in prompt engineering and well-versed in cybersecurity. With solid skills in web development, a good understanding of data structures and algorithms, and familiarity with DevOps, I am eager to apply my diverse technical knowledge, learn new technologies, and contribute to innovative projects in a dynamic environment.

Work Experience

- Developed and deployed the "Clothify" e-commerce site, focusing on a clean, user-friendlyinterface and efficient functionality.
- Created a fully responsive clone of the PW Skills website, ensuring consistent performance acrossvarious devices and screen sizes.
- Applied secure coding practices to enhance the security of web applications, including inputvalidation.
- Managed project collaboration and version control using Git and GitHub, maintaining an organizedand scalable codebase.

SKILLS

- **FRONT-END**: HTML , CSS , TailWind CSS , JavaScript
- **DESIGNING TOOLS**: Figma , Canva
- **DATABASE:** PHP , SQL
- **Others:** DevOps , Cybersecurity

PROJECTS

- **E-commerece Website Clothify :**   **Apr 2024 – June 2024**
  - **Designed and developed "Clothify"**: Created a fully functional e-commerce website using HTML,CSS, and JavaScript, showcasing strong frontend development skills.
  - **Implemented responsive design**: Ensured the website is accessible and user-friendly across variousdevices and screen sizes through effective use of CSS media queries.
  - **Deployed on Netlify:** Successfully deployed the website on Netlify, ensuring reliable and scalablehosting with continuous integration capabilities.
- **PW Skills Clone Using TailWind CSS:**   **July 2024 – August 2024**
  - **Developed a responsive clone of the PW Skills website** using HTML, CSS, and Tailwind CSS, showcasingproficiency in modern web design and development practices.
  - **Implemented dynamic and adaptive UI components** to ensure seamless user experience acrossdifferent devices and screen sizes.
  - **Utilized Git and GitHub** for efficient version control and project management.

CERTIFICATIONS

- JavaScript Basic certificate from HackerRank   **EDUCATION :**
- SQL Basic certificate from HackerRank   **Bachelor of Computer Application**
- Prompt Engineering certificate from Udemy   Presidency University , Bangalore
